

To whom it may concern:

I am pleased to recommend Anna Ivanova for an exchange student position. Anna attended my studio for the last two years. She has excelled in her studies and has shown an ability to research and analyze, to integrate design and technology, to generate creative ideas and to find interesting ways of design and delivery.

I had an opportunity to observe her participation and interaction in architecture and design and to evaluate her original and positive attitude. Anna has shown motivation, intelligence and creativity. She has the ability to produce impressive results in a wide variety of areas, being organized and motivated, self-confident and success-oriented. She is open-minded and co-operative and possesses the capacity to contribute positively while working as part of a team.

Anna is CAD software literate and has displayed good hand drawing and model making abilities.

In my view Anna compares favorably with the best among my students. I can certainly state that she is a reliable and a creative student. If you have any questions regarding this recommendation, please do not hesitate to contact me.
